Projects

Año Nuevo — Fall 2018-Summer 2019

Created an educational card game intended to simulate the life cycle of the male northern elephant seal. Designed card layouts using Adobe Illustrator, and iterated on rules document for clarity and enjoyability. Currently coordinating with artist to develop final card art so game can be published.

Paraducks — Fall 2018-Spring 2019

Assembled a team of twelve designers, programmers, and artists, then acted as producer for the team. As producer, coordinated meetings, managed production plan and documentation, resolved interpersonal disputes, and ensured game followed a cohesive vision. Also contributed conceptual level design, foley work, dialogue editing, shader work, and minor C# gameplay programming in Unity.

Captains, Cooks, and Quartermasters — Winter 2017-Winter 2018

Wrote an extensive rulebook for a pirate-themed tabletop role-playing game intended to capture the essence of the pirate tale genre through gameplay. Designed an innovative conflict resolution mechanic to reinforce game's theme.
